**BLASTING WORK TO RESUME ON SPAULDING TURNPIKE IN NEWINGTON**  
***NORTHBOUND AND SOUTHBOUND DELAYS BETWEEN EXITS 1 AND 3***

The New Hampshire Department of Transportation (NHDOT) announces the planned resumption of blasting working associated with the Spaulding Turnpike widening project in Newington is expected to take place this week between Exit 1 and Exit 3.

This blasting activity will take place for a few days at various times between the hours of 9:00 am and 3:00 pm. Northbound and southbound traffic on the Spaulding Turnpike will be kept out of the blast zone via State Police rolling road blocks.

Some delays should be anticipated. Motorists are urged to maintain a safe following distance through the work zone to prevent accidents.
